

Bike Sets Week Commencing 13-10-2014

Bike: Preparation Turbo set 1

Duration (P):1hr

Workout Description:

The purpose of this session is to substitute a ride on the road due to poor weather or is a turbo that can be used in the base phase. It is an opportunity to work on technique as well. For the duration of the session, ensure that you remain below your lactate threshold.

See threshold levels below:

Level 1 (L1) – Active Recuperation, 0–55% FTP, 0–68% LTHR, 0–2 RPE;

Level 2 (L2) – Endurance, 56–75% FTP, 69–83% LTHR, 2–3 RPE;

Level 3 (L3) – Tempo, 76–90% FTP, 84–94% LTHR, 3–4 RPE;

Level 4 (L4) – Lactate Threshold, 90–105% FTP, 95–105% LTHR, 4–5 RPE;

Level 5 (L5) – Maximal Aerobic Power, 106–120% FTP, 106%< LTHR, 6–7 RPE;

Level 6 (L6) – Anaerobic Capacity, 121%< FTP, 106%< LTHR, 7–10 RPE;

Level 7 (L7) – Neuromuscular Power, Max Effort;

MedwayTri Session Plans

Bike: Base Club Ride

Duration (P):3hrs

Workout Description:

Club Ride. Stick with pack. If you feel strong, go at the front, if not, stay settled in the back and find your legs. Record what you do but make sure it's not too fast, distance is the key!
